MESSAGE FROM MANAGEMENT

Dear Shareholders,

The Company's revenue grew 8.6% this quarter, slowing down in relation to the first half of the year. However, it is worth emphasizing the strong performance in the second half of 2021. Gross margin reached 36.3% in the quarter (32.8% in 1Q22 and 32.8% in 2Q22), due to the recognition of revenues from some corporate projects whose margins were lower than those normally registered by the Company in the first and second quarters.

As mentioned in the 2Q22 release, operating expenses remain under pressure, since some items are returning to normal compared to pre-pandemic levels, leading to a 6.7 p.p. decline in operating margin during the quarter, which reached 10.7%.

Net revenue in the quarter increased 1.3% to R\$7.3 million, with annualized ROIC of 23%. Excluding the impacts of the lawsuits related to PIS/COFINS and inflation on financial investments, as mentioned in the 1Q22 and 2Q22 Releases, adjusted ROIC reached 16.2%.

Cash consumption stood at R\$8.3 million, mainly affected by the decrease in advances from customers, which was expected as this item increased significantly last year due to the prepayment of orders by dealers to hedge the prices. This quarter, no additional advances were registered because the Company did not alter the prices. Another highlight is that the Company paid, using the tax credits, around R\$5.3 million in federal taxes, with the balance of credits recorded in the first quarter related to the PIS/COFINS lawsuit.

On October 3, the Company obtained authorization for the credits in the lawsuit on inflation on financial investments, as mentioned in the 2Q22 release. Credits totaled R\$6.8 million and will be used starting from November.

As part of the plans to take the Dell Anno brand to the U.S. market, the Company signed a rental agreement for a sales outlet in New York City. The store, with sales area of approximately 300 m², is

located in one of New York's main furniture hubs, around 200 meters near the Madison Square Park and the Fifth Avenue. The store is scheduled for opening in the first half of 2023.

SALES PERFORMANCE

Gross revenue in 3Q22 increased 9.6%, mainly due to improved performance by the sales channels, which grew 17.5%. The following chart shows the evolution of revenue between 3Q21 and 3Q22(1):

(1) In million.

The Unicasa Corporate and Export Markets segments are affected by significant oscillations due to the specific aspects of the projects sold in the period. The Export Markets segment is also impacted by exchange rate variation.

FINANCIAL PERFORMANCE

Gross Profit and Gross Margin

As in 2Q22, the variation in gross margin is mainly due to corporate sales in both the domestic and export markets.

Selling, General and Administrative Expenses (SG&A)

The following chart presents the evolution of Selling, General and Administrative Expenses between 3Q21 and 3Q22(1):

(1) In million.

The main impacts on personnel expenses are: the increase in headcount to sustain the growth of the U.S. operation; replacements in the support team for domestic stores, which had been postponed due to the pandemic; and the collective bargaining agreement, with a wage increase of 10.6%.

Advertising expenses increased R\$1.2 million, especially due to the resumption of fairs, conventions and advertising campaigns, which did not occur in 2021 due to the pandemic.

Marketing costs increased R\$0.9 million, mainly due to expenses related to the corporate and export segment, such as freight, customs clearance and assembly.

The partial resumption of travel contributed to the R\$0.4 million increase in this expense line.

Operating expenses in the U.S. increased due to variable costs of sales, especially freight.

Other Operating Income and Expenses

Other operating income were higher mainly due to the non-recurring effect of recovery of amounts related to lawsuits.

Cash Flow

Cash consumption in the quarter was mainly due to the decline in advances from customers, which consumed cash of R\$11.8 million. Also worth highlighting is the decrease in cash flow from operating activities caused by the increase in expenses, as mentioned earlier in this release. In 3Q21, advances from customers moved in the opposite direction, when the Company increased prices in August, which

increased advances from customers seeking to hedge prices, resulting in cash inflow of approximately R\$20 million.

UNICASA INDÚSTRIA DE MÓVEIS S.A.

Management's notes to the interim financial information
for the three- and nine-month periods ended September 30, 2022 and 2021
(Amounts in thousands of reais, unless otherwise stated)

1. Operations

Unicasa Indústria de Móveis S.A. ("Company") is a publicly traded corporation with registered office in the city of Bento Gonçalves, state of Rio Grande do Sul, with shares listed on the Novo Mercado segment of "B3 S.A. – Brasil, Bolsa e Balcão" (BM&FBovespa), under ticker UCAS3, since April 27, 2012. Established in 1985, the Company's corporate purpose is to manufacture, sell, import and export products related to the wood, iron and aluminum furniture segment, and other articles related to household and commercial furniture.

The Company has resale agreements with agents authorized to explore our brands "Dell Anno", "Favorita", "New", "Casa Brasileira" and "Unicasa Corporate" through exclusive dealers and multibrand stores in Brazil and abroad.

The corporate purpose of Unicasa Comércio de Móveis Ltda. (subsidiary), included in the parent company and consolidated interim financial statements, is the retail sale of customized furniture. The subsidiary remains open only to serve the operation's holdover clients and as a support for clients of the parent company's Unicasa Corporate segment.

This quarter, the company opened Unicasa Holding LLC, a subsidiary in the United States, and Dell Anno NYC LLC, a subsidiary of Unicasa Holding LLC. Consequently, the ownership of Unicasa North America LLC was transferred to Unicasa Holding LLC, both included in the consolidated financial statements. Dell Anno NYC LLC was created to prospect, market and consolidate the "Dell Anno" brand in North America.

Impacts of Covid-19 (Coronavirus)

The Company continues to work actively on the prevention measures to help control the spread of the coronavirus (COVID-19), reinforcing the hygiene protocols, disseminating information through its internal communication channels and following the guidelines of the World Health Organization (WHO). Given the decline in COVID-19 cases and the increase in the percentage of population vaccinated across the country, all administrative employees returned to on-site work.

In light of the current scenario and in line with the requirements of the Securities and Exchange Commission of Brazil (CVM), the Company's Management analyzed possible impacts from an increase in expected losses or a significant change in the risks to which the Company is exposed that could impair its assets and affect the measurement of provisions shown in said quarterly information. This revision considered the events after the date of disclosure of this quarterly information and no significant effects were identified that should be reflected in the quarterly information for the three- and nine-month periods ended September 30, 2022.

2. Summary of accounting practices

The interim parent company and consolidated accounting information for the period ended September 30, 2022 was prepared and is being presented in accordance with CPC 21 (R1) – Interim Reporting, issued by the Brazilian Accounting Pronouncements Committee ("CPC"), and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board ("IASB"), in consonance with the standards issued by the Securities Commission of Brazil (CVM), applicable to the preparation of Quarterly Information (ITR). The interim accounting information was prepared by the Company to provide users with significant information presented in the reporting period and must be analyzed together with the complete financial statements for the fiscal year ended December 31, 2021 and the interim accounting information for the nine-month period ended September 30, 2021.

Management's notes to the interim financial information
for the three- and nine-month periods ended September 30, 2022 and 2021
(Amounts in thousands of reais, unless otherwise stated)

2. Summary of accounting policies--Continued

The accounting policies, the use of certain accounting estimates, Management judgments and calculation methods adopted in this quarterly accounting information are the same as those adopted in the preparation of annual financial information for the fiscal year ended December 31, 2021 and interim accounting information for the nine-month period ended September 30, 2021.

Approval of parent company and consolidated interim financial statements

The presentation of parent company and consolidated interim financial statements was concluded and authorized for use at the Board of Directors' Meeting held on November 10, 2022.

2.1 Standards and interpretations

During the quarter ended September 30, 2022, no new standards were disclosed that could have an impact on the Company's accounting information. Hence, the Company's Management continues the plan for adopting new standards, disclosed in the financial statements as of December 31, 2021, on the date they become effective, which, as per the Management's prior assessment, do not have any significant impact on its accounting information.

2.2 Measurement basis

The parent company and consolidated interim financial statements were prepared with the historical cost as base value, which, in the case of financial assets and liabilities, is adjusted to reflect the measurement at fair value.

(a) Use of estimates and judgments

While preparing these parent company and consolidated interim financial statements, Management used judgments, estimates and assumptions that affect the Company's application of accounting principles and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

Estimates and assumptions are constantly reviewed. Revisions of estimates are recognized prospectively.

Information on judgments made while applying accounting policies and on uncertainties about assumptions and estimates with significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Notes 5 and 8 – Allowance for doubtful accounts;
- Note 16 – Provisions for civil, labor and tax risks.

(b) Statement of value added

The Company prepared parent company and consolidated statement of value added in accordance with technical pronouncement CPC – 09 – Demonstração do Valor Adicionado, which is presented as an integral part of the financial statements as per BR GAAP applicable to publicly held companies, while it represents additional financial information under IFRS.

(c) Presentation of information by segments

Information by operating segments is presented in accordance with the internal report provided to the main operational decision maker. The main operational decision maker responsible for allocating resources and evaluating the performance of operating segments is the Board of Directors, which also takes the Company's strategic decisions.

(Amounts in thousands of reais, unless otherwise stated)

2. Summary of accounting policies--Continued**Approval of parent company and consolidated interim financial statements—Continued****2.2 Measurement basis--Continued****(d) Functional currency and presentation currency**

The parent company and consolidated interim financial statements are presented in Brazilian real (R\$), which is the Company's functional currency and presentation currency. All balances were rounded to the nearest thousand, unless otherwise stated.

The items included in the parent company and consolidated interim financial statements of each of the Company's entities are measured using the currency of the main economic environment in which the company operates ("the functional currency").

2.3 Consolidated quarterly information

The consolidated quarterly information includes the operations of the Company and its subsidiaries, as follows:

	Main Characteristics	Headquartered in	Ownership interest	Percentage ownership
Unicasa Comércio Ltda	Sale and distribution of our products.	Brazil	Direct	99.99%
Unicasa Holding, LLC	Sale and distribution of our products.	USA	Direct	100%
Dell Anno NYC, LLC	Sale and distribution of our products.	USA	Indirect	100%
Unicasa North America, LLC	Sale and distribution of our products.	USA	Indirect	100%

The reporting periods of the quarterly information of the subsidiaries included in the consolidation coincide with those of the parent company and the accounting policies were applied uniformly in the consolidated companies and are consistent with the international accounting standards and the accounting practices adopted in Brazil.

3. Cash and cash equivalents

Cash and cash equivalents do not have restrictions for use, have short-term original maturity, are highly liquid and easily convertible into a known cash amount and are subject to an insignificant risk of change in value.

5. Trade accounts receivable

Represent the amounts receivable from clients for the sale of goods in the ordinary course of business of the Company, plus exchange variation, when applicable, and then measured at amortized cost, after deducting the allowance for doubtful accounts. If the term for receipt is equivalent to one year or less, the amounts are classified under current assets. Otherwise, they are recorded under non-current assets. Trade accounts receivable transactions were adjusted at fair value, considering cash flows of the transactions and the implicit interest rate of the respective assets.

5. Trade accounts receivable--Continued

The allowance for doubtful accounts losses is based on the individual analysis of total trade accounts receivable overdue for more than 90 days, considering the clients' payment capacity, the current and prospective economic scenario, the evaluation of delinquency levels and guarantees received, as well as evaluation of renegotiations made. Specific cases not yet overdue, but with risk of loss in the Management's opinion, is also included in the allowance.

The changes in allowance for doubtful accounts are:

(*) Considers the maturity originally agreed to between the Company and its clients and, therefore, this line includes: Allowance for doubtful accounts – Trade notes not expected to be received and so are covered by a provision for expected and recognized trade losses;

Guarantees – Trade notes guaranteed by properties required at the start of the operation with resellers, whose documents are registered at the notary's office to guarantee the Company their execution in case of nonperformance of agreement. These notes are in the process of execution of guarantees. Despite the actual expectation of receipt, a part of these notes is classified in the long term according to the progress of the lawsuits and the understanding of our legal advisors.

6. Inventories

Inventories are stated at cost or net realizable value, whichever is lower. Costs incurred to take each product to its current location and condition are recorded as follows:

- (i) Raw materials – cost of acquisition according to average cost.
- (ii) Finished products and products under production – cost of materials and direct labor and proportional portion of indirect general expenses based on the normal operating capacity.

The net realizable value corresponds to the sale price in the normal course of business, less estimated costs for conclusion and sale.

The balance of inventories is broken down as follows:

	Parent Company		Consolidated	
	9/30/2022	12/31/2021	9/30/2022	12/31/2021

7. Assets held for sale

On September 30, 2022, assets held for sale totaling R\$2,746 (R\$527 on December 31, 2021) consist of two properties received through negotiation of debts with clients and are available for immediate sale. The asset is held at its book value, which is lower than its fair values, less selling expenses.

9. Taxes recoverable--Continued

Said credit is in the name of the subsidiary Unicasa Comércio, whose operations, as described in the Operations section, have been scaled down and, consequently, are not expected to generate income to realize the credit, which would qualify it as a non-realizable asset. Hence, the Company Management decided to file a lawsuit requesting the refund of the amounts unduly taxed and/or paid due to the inclusion of ICMS in the PIS and Cofins calculation base.

The lawsuit is pending at the Federal Court of Bento Gonçalves, Rio Grande do Sul, with favorable judgment to the Company, and the process of enforcing the judgment has started. Recently, a request for the payment of court-issued registered warrant (*precatório*) was issued in favor of the company. There is no expected date for the payment yet.

() No IRPJ/CSLL tax on portion corresponding to inflation on income from financial investments**

On November 30, 2018, the Company filed a Writ of Mandamus requesting the exclusion of Corporate Income Tax (IRPJ) and its prepayments as Withholding Income Tax (IRRF) and Social Contribution on Net Income (CSLL) on the portion corresponding to inflation on income from financial investments.

On June 2, 2022, the Company obtained the final and unappealable decision in its favor.

The best estimates of the Company and its legal advisors indicate an inflation-adjusted amount of R\$6,801. These IRPJ and CSLL credits were booked under profit or loss for the year in the current Income Tax and Social Contribution line as a corresponding entry to short-term recoverable taxes. Credits related to deferred IRPJ and CSLL were booked under profit or loss for the year in the deferred Income Tax and Social Contribution line as a corresponding entry to long-term deferred taxes. The amount will be offset after the credit is released by tax authorities.

12. Property, plant and equipment

These are registered at acquisition, formation or construction cost, net of PIS/COFINS and ICMS credits which corresponding entry is recorded as recoverable taxes. A property, plant and equipment item is written off when sold or when no future economic benefit is expected from its use or sale. Gain or loss from the write-off of an asset, calculated as the difference between net sale value and book value of the asset, is included in the statement of operations for the period in which the asset was written off.

Depreciation of assets is calculated using the straight-line method at depreciation rates and take into consideration the estimated useful lives of these assets. The assessment of useful life of assets is revised annually and adjusted if necessary. The depreciation methods, useful lives and residual values are reviewed at the end of the fiscal year and any adjustments are recognized as changes in accounting estimates.

If there is evidence that the recoverable value of property, plant and equipment and intangible assets decreased in relation to the amounts registered in books, impairment tests will be made. This evaluation is made, revised and analyzed annually based on assumptions established in the accounting policy to determine if it is necessary to record provision for impairment - CPC 01.

13. Intangible assets

Intangible assets with a defined life are measured at cost, less amortization accrued over the economic useful life and evaluated for impairment whenever there is indication of loss of economic value of the asset. The amortization period and method for an intangible asset with defined life are reviewed at least at the end of each fiscal year. The amortization of these intangible assets is recognized in the statement of operations.

14. Income tax and social contribution

The Company, classified under the Taxable Income regime, changed for fiscal year 2022 its calculation methodology to quarterly. In 2021, the methodology used was annual Taxable Income calculation. Income Tax and Social Contribution are calculated based on the tax rate in effect. Current and deferred taxes are recognized in profit or loss for the period.

The recognition of deferred taxes is based on the temporary differences between the book value and the tax value of assets and liabilities, on tax losses calculated and the negative calculation basis for social contribution on income, as their realization is deemed probable as an entry to future taxable income. Deferred tax assets and liabilities are offset if there is a legal right to offset current tax assets and liabilities, and are related to taxes levied by the same tax authority on the same entity subject to taxation.

Deferred income tax and social contribution

The breakdown of deferred income tax and social contribution is as follows:

(*) The amount of R\$2,201 refers to income tax losses and social contribution tax loss carryforwards due to the favorable outcome on the lawsuit related to the exclusion of IRPJ and CSLL charged on the portion corresponding to inflation on income from financial investments, and this amount was booked as deferred Income Tax and Social Contribution as a corresponding entry to deferred taxes. The amount will be offset after the credit is approval by tax authorities.

The studies and projections carried out by the Company Management indicate the generation of positive future results. Based on such projections, the estimated recovery of balance of deferred income tax and social contribution is shown below:

16. Provisions

The Company and its subsidiaries are parties to administrative proceedings, as well as labor, tax and civil lawsuits resulting from the normal course of their operations.

The Company periodically reviews its contingencies through its legal department and its external legal advisors and classifies their likelihood of loss as: (i) Probable, (ii) Possible and (iii) Remote.

a) Provision for labor, tax and civil risks

The Company is a defendant in certain labor, tax and civil lawsuits. The estimated loss was provisioned based on the opinion of its legal counsel, in an amount considered sufficient by the Management to cover probable losses that may arise from unfavorable court decisions. The provision is broken down as follows:

	Parent Company and Consolidated	
	9/30/2022	12/31/2021
Provision for labor risks	750	1,266
Provision for tax risks	780	757
Provision for civil risks	4,347	4,677
	5,877	6,700

Labor – the Company is party to labor lawsuits basically related to overtime.

Tax – the Company is party to tax lawsuits mainly related to import tax and INSS.

Civil – the Company is party to civil lawsuits involving store owners and end consumers, in which the Company may be considered jointly and severally liable.

The Company is party to labor, tax and civil lawsuits, involving risk of loss classified by the management as possible, based on an assessment by its legal advisors, for which no provision was recorded. Civil, labor and tax lawsuits classified as possible loss are shown below:

	Parent Company	
	9/30/2022	12/31/2021
Labor lawsuits	245	265
Tax lawsuits	3,010	2,980
Civil lawsuits	4,263	5,217
	7,518	8,462

Civil: Civil lawsuits assessed by the management jointly with its legal advisors as having possible chances of loss refer to lawsuits involving storeowners and end consumers.

Tax: The tax lawsuits assessed by the management jointly with its legal advisors as having possible chances of loss refer to the INSS lawsuit.

Labor: The labor lawsuits assessed by the management jointly with its legal advisors as having possible chances of loss refer to actions filed by former employees of the Company related to overtime.

(**) In the context of application of CPC 06 (R2), the Company analyzed its portfolio of agreements and these were classified under the exemption envisaged by the pronouncement. In the period, the Company recognized expense of R\$359 (R\$371 on December 31, 2021).

19. Shareholders' equity**a) Capital stock**

The capital stock of the Company is R\$147,000 on September 30, 2022 and December 31, 2021, divided into 66,086,364 registered common shares without par value.

b) Profit retention and reservesLegal reserve

Recorded based on 5% of net income from the fiscal year, limited to 20% of the paid-in capital. On September 30, 2022, the balance in the reserve is R\$2,938.

Expansion reserve

The expansion reserve was recorded in accordance with article 196 of Federal Law 6,404/76 with the approval at the Annual Shareholders Meeting held on April 28, 2022 discussing the creation of the reserve amounting to R\$17,511, to cover a portion of the investments in the expansion plan.

c) Other comprehensive income

Corresponds to the cumulative effect of exchange translation of functional currency to the original currency of the parent company and consolidated interim financial statements of the foreign subsidiary, calculated on the company's investments abroad, assessed using the equity method. This cumulative effect will be reverted to profit or loss for the period as gain or loss upon the sale or write-off of the investment.

19. Shareholders' equity--Continued

d) Dividends and interest on equity

According to the bylaws, minimum mandatory dividend is calculated at 25% of net income from the year after the allocation to reserves established by law.

The annual and extraordinary shareholders meeting held on April 28, 2022 approved the payment of interest on equity approved by Management at the Board of Directors Meeting held on December 13, 2021. The amounts were paid to shareholders on May 26, 2022.

e) Earnings per share

As required by IAS 33/CPC 41 – Earnings per share, the tables below recognize profit to amounts used to calculate basic earnings per share.

Basic earnings per share

For periods ended on September 30, 2022 and 2021, the Company registered basic earnings per share, calculated by dividing the net income from the period by the weighted average of outstanding shares, as shown below:

	Parent Company and Consolidated			
	7/1/22 to 9/30/22	1/1/22 to 9/30/22	7/1/21 to 9/30/21	1/1/21 to 9/30/21
Net income for the year	7,360	27,986	7,269	16,301

25. Financial Instruments

The Company determines the classification of its financial assets and liabilities upon their initial recognition in accordance with the business model used to manage the assets and their respective contractual cash flow characteristics, pursuant to CPC 48 / IFRS 9.

The Company's financial instruments measured at their amortized cost are held for the purpose of receiving or payment of contractual cash flows, which consist of principal and interest, recorded at their original value less allowance for losses and present value adjustment when applicable. The financial instruments and their outstanding balances on September 30, 2022 and December 31, 2021, are shown below:

26. Financial risk management

The Company's operations expose it to financial risks: market risks (including interest and exchange rates and commodity prices), credit and liquidity. The risks of financial instruments are managed through financial positioning strategies and systems to limit exposures, all registered in equity accounts, which are aimed at meeting its operational requirements.

The Internal Audit is responsible for implementing the Risk Policy approved at the Board of Directors Meeting held on December 13, 2021. The Audit Committee, created at the Board of Directors Meeting held on April 27, 2022, is responsible for monitoring the activities of Internal Audit and reporting the conclusions to the Board of Directors. We do not conduct operations with derivative instruments or any other type of operation for speculative purposes.

- **Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument fluctuates due to variations in market prices. Market prices encompass three types of risk: interest rate, exchange, and price, which could be of a commodity, among others. Financial instruments affected by market risks include loans receivable and trade accounts payable.

- Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument fluctuates due to variations in market interest rates. The Company's exposure to this risk of changes in market interest rates is mainly due to long-term obligations subject to variable interest rates.

(Amounts in thousands of reais, unless otherwise stated)

26. Financial risk management—Continued

- **Market risk**--Continued

- I. **Interest rate risk**--Continued

The Company's main exposure is loans receivable. The Company has neither conducted loan operations or their payments, nor registered previous balances in the reporting periods. The Company uses shareholder's equity to finance its operating and investing activities and dividend payment. Thus, this risk is mitigated in the Company's transactions.

- II. **Exchange risks**

- Cash and accounts receivable in foreign currency

On September 30, 2022, the Company had cash in foreign currency of USD12 (R\$71) and balance of accounts receivable from exports equivalent to USD1,856 (USD1,075 on December 31, 2021).

The Company's results are susceptible to variations arising from the effects of exchange rate volatility on foreign currency transactions, mainly in export operations. The Company adjusts its structure of costs and selling prices in order to assimilate exchange oscillations.

- Sensitivity to exchange rates

In order to verify the sensitivity of indexes of assets and liabilities in foreign currency, with representativeness, two different scenarios were defined to analyze the sensitivity on exchange rate oscillations. This analysis considers depreciation of exchange rate by 25% and 50% over the exchange rate on September 30, 2022. These assumptions were defined based on the Management's expectations for variations in the exchange rate on the maturity dates of respective agreements subject to these risks.

- Accounts receivable in foreign currency

	Reference amounts			
	Balance of accounts receivable - USD	Balance of accounts receivable - R\$	U.S. dollar rate	Impacts on income before taxation
Probable scenario (book value)	1,856	10,034	5.40	-

Possible scenario 50%	1,856	5,017	2.70	(5,017)

- Trade payables in foreign currency

for the three- and nine-month periods ended September 30, 2022 and 2021
(Amounts in thousands of reais, unless otherwise stated)

26. Financial risk management—Continued

- **Market risk**--Continued

III. **Commodity price risk**

This risk is related to the possibility of oscillation in prices of raw materials and other inputs used in the production process. Since the Company uses commodities as raw material (MDF and MDP boards), its cost of goods sold may be affected by changes in the prices of these materials. To minimize this risk, the Company permanently monitors price oscillations and, as applicable, builds strategic inventories to maintain its business activities.

- **Credit risk**

This risk arises from the possibility of incurring losses due to delinquency of other parties or financial institutions depositing resources or of financial investments. To mitigate these risks, the Company adopts the practice of analyzing financial and equity conditions of its counterparties, as well as defining credit limits and monitoring permanently their outstanding positions. With regard to financial institutions, the Company only carries out operations with low-risk institutions, as evaluated by its Management. For trade accounts receivable, the Company has not recorded allowance for loan losses yet, as mentioned in Note 5.

Accounts receivable

Risk of credit to client is managed by the financial department and is subject to specific procedures, controls and policies established by the Company.

Credit limits are established for all clients based on internal rating criteria. On September 30, 2022, the Company had 30 clients (22 clients on December 31, 2021), representing 50.55% (50.64% on December 31, 2021) of all receivables due. These clients operate with several stores in Brazil. No client individually represents more than 10% of the sales. The Company has security interest and monitors its exposure.

The need for a provision for impairment is analyzed every reporting period on an individual basis by clients. Allowance for loan losses is constituted at an amount considered sufficient by Management to cover losses in recovering credits and is based on criteria such as balances of clients with delinquency risk.

Bank deposits

Credit risk on balances with banks and financial institutions is considered low and is managed by the financial department and monitored by executive officers. Surplus funds are invested only in prime financial institutions authorized by the Board of Executive Officers, being monitored in order to minimize risk concentration.

- **Liquidity risk**

Liquidity control is monitored by the Company through the management of its cash flows, to ensure that its funds are available in sufficient amounts to maintain its commitments on schedule. The Company holds balances in financial investments that are redeemable at any moment to cover any gaps between the maturity of its contractual obligations and its cash generation.

26. Financial risk management—Continued

- **Liquidity risk**--Continued

The consolidated financial liability on September 30, 2022 consisted of trade payables amounting to R\$8,620, of which R\$7,302 falling due in up to 90 days. The Company does not have loans and financing facilities contracted and, accordingly, effects of future interest are virtually nonexistent.

- **Capital stock management**

The Company manages its capital structure and adjusts it considering the changes in economic conditions. The capital structure arises from choosing between shareholders' equity (capital injections and retained earnings) and loan capital to finance its operations. Management adopts as a financing practice the shareholders' equity generated by its operations, and monitors its debt in such a way as to optimize its cash flows and its present value. There were no changes in goals, policies or processes during the period ended September 30, 2022 and fiscal year ended December 31, 2021.

The financial leverage ratio is shown below:

	Parent Company		Consolidated

Financial leverage index	(10.37)%	(43.02)%	(9.88)%	(42.83)%

27. Insurance

The Company has insurance policies that were taken based on guidance from specialists, contracting in the market coverages compatible with its size and operation. Coverages were contracted at amounts considered sufficient by the management to cover possible losses, considering the nature of its activity and the risks involved in its operations. The main insurance categories are shown below:

28. Information by segment

The Company's operations involve the manufacturing and sale of customized furniture. Despite targeting several client segments, the Company's products are not controlled and managed by the Management as independent segments, and the Company's results are managed, monitored and evaluated in an integrated manner as one sole operating segment.

29. Events after the Reporting Period**a) Adhesion to FUNDOPEM/RS**

On October 24, 2002, the Company received approval from the technical analysis group to join the Company Operation Fund of the State of Rio Grande do Sul (FUNDOPEM/RS) and the Program for the Industrial Development of Rio Grande do Sul (INTEGRAR/RS). FUNDOPEM/RS is an instrument of partnership between the government and the private sector, whose support is through the partial financing of the additional ICMS generated by the project. Together with FUNDOPEM/RS, INTEGRAR/RS is an additional incentive that establishes a percentage of deduction from the financing installment. The start date for enjoying the benefit and interest rate, among others, will be disclosed in an Eligibility Opinion published in the State Register "Diário Oficial do Estado do Rio Grande do Sul" on a date to be defined.

Introdução

Revisamos as informações contábeis intermediárias, individuais e consolidadas, da Unicasa Indústria de Móveis S.A. ("Companhia"), contidas no Formulário de Informações Trimestrais - ITR referente ao trimestre findo em 30 de setembro de 2022, que compreendem o balanço patrimonial em 30 de setembro de 2022 e as respectivas demonstrações do resultado e do resultado abrangente para os períodos de três e de nove meses findos nessa data e das mutações do patrimônio líquido e dos fluxos de caixa para o período de nove meses findo nessa data, incluindo as notas explicativas.

A administração é responsável pela elaboração das informações contábeis intermediárias individuais e consolidadas de acordo com o Pronunciamento Técnico CPC 21 - Demonstração Intermediária e com a norma internacional de contabilidade IAS 34 - Interim Financial Reporting, emitida pelo International Accounting Standards Board (IASB), assim como pela apresentação dessas informações de forma condizente com as normas expedidas pela Comissão de Valores Mobiliários, aplicáveis à elaboração das Informações Trimestrais - ITR. Nossa responsabilidade é a de expressar uma conclusão sobre essas informações contábeis intermediárias com base em nossa revisão.

Alcance da revisão

Conduzimos nossa revisão de acordo com as normas brasileiras e internacionais de revisão de informações intermediárias (NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade e ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectivamente). Uma revisão de informações intermediárias consiste na realização de indagações, principalmente às pessoas responsáveis pelos assuntos financeiros e contábeis e na aplicação de procedimentos analíticos e de outros procedimentos de revisão. O alcance de uma revisão é significativamente menor do que o de uma auditoria conduzida de acordo com as normas de auditoria e, consequentemente, não nos permitiu obter segurança de que tomamos conhecimento de todos os assuntos significativos que poderiam ser identificados em uma auditoria. Portanto, não expressamos uma opinião de auditoria.

Conclusão sobre as informações intermediárias

Com base em nossa revisão, não temos conhecimento de nenhum fato que nos leve a acreditar que as informações contábeis intermediárias individuais e consolidadas incluídas nas informações trimestrais acima referidas não foram elaboradas, em todos os aspectos relevantes, de acordo com o CPC 21 e o IAS 34, aplicáveis à elaboração das Informações Trimestrais - ITR, e apresentadas de forma condizente com as normas expedidas pela Comissão de Valores Mobiliários.
